## Atlanta Clinical Care's Prescription Pain Medication Policy

Atlanta Clinical Care, PC is a referral/consultation-based Infectious Diseases practice, as such, we do not typically provide medical services not directly related to the diagnosis and treatment of infectious diseases and immunodeficiencies. In particular, we do not provide narcotic analgesic prescriptions on a short-term (acute) or long-term (chronic) basis. Any patient requiring narcotic analgesic medications should obtain them from their Primary Care physician or the Physician referring you to our practice. We do not provide courtesy refills on prescriptions that have been written by physicians or advanced practice providers of referring practices.
